technical data

19.11.2014

reed-magnetic switch

AC/DC 2-wire

35 x 15 x 68mm

ident-no.:
75141
type:
MKF35ARAK

revision index: 004

output	bistable (locking switch)
switching capacity	max. 60 W/VA
switching voltage	max. 230 V AC/DC
switching current	max. 1000 mA
switch on time	3,5 ms
switch off time	0,20 ms
switching frequency	max. 100 Hz
lifetime at nominal load	10^5 to 10^6 operations
operating temperature range	-20°C ... +50°C
degree of protection acc. to DIN 60 529	IP65
dielectric test voltage ac (rms.) U_i	--- V
on/off indication	---
housing material	plastics
connection	1m PVC-cable 2 x 0,75mm ²

Applications are inadmissible when safety of persons depends on the function of the device.
